Rainwater Filtration
Product Guide

Puretec®
PERFECTING WATER

Protect* the health of your family with a Puretec rainwater filtration system.

Puretec offers a wide range of filtration solutions to suit your needs. From an undersink system to whole house protection, you can enjoy the peace of mind knowing you've got safe, purified water at every outlet in house.

BACTERIA

Bacteria can be present in mains water due to outbreaks of algae, E. Coli and other bacteria, which can cause significant health impacts. Bacteria can be easily removed^ with a UV filtration system.

SEDIMENT

Sediment such as dirt, sand or rust can make its way into your rainwater potentially resulting in a build up in your pipes & damage to your appliances, but can be easily reduced with a quality water filter.

CHEMICALS

Rainwater picks up Co2 in the atmosphere, then chemicals and pesticides from your roof and gutters, which can be reduced with a carbon block filter.

HybridPlus™ Series

A Complete Rainwater Filtration System

Designed specifically for rainwater, the patented Puretec HybridPlus™ is a complete plumb & play package with pump*, filters & UV steriliser all-in-one unit that is weatherproof, rodent proof, tamper proof and reduces pump noise.

The HybridPlus™ Series systems incorporate Radfire™ ultraviolet technology, a natural purification process that's completely eco-friendly, chemical-free and kills up to 99.9% of bacteria including E. coli, Giardia, and Cryptosporidium Cysts.

HYBRID-P12

86 Lpm, 1" Connection • Pump 0.9kW mains to rain controller

HYBRID-P9

50 Lpm, 1" Connection • Pump 0.5kW mains to rain controller

EM2 Series

Dual Water Filter Systems for Whole House and Buildings

The Puretec EM2 Series filtration systems are the appropriate choice for providing clean water throughout the house. This two-stage system will reduce sediment, chemicals, taste & odour down to 5 microns. Use in conjunction with TankSafe for bacterial protection.

EM2-60

DUAL STAGE FILTRATION, 10" MODEL
60 Lpm, 1" Connection

EM2-110

DUAL STAGE FILTRATION, 20" MODEL
110 Lpm, 1½" Connection

TankSafe™

Kills up to 99.9% of all germs, bacteria and viruses

TankSafe™ is an alternative to dosing with chlorine, it's tasteless, odourless and chlorine free, designed specifically for tank water disinfection.

TankSafe™ is low cost and non-toxic when used as directed, while most chemicals used for water disinfection are toxic (some are even known carcinogens), TankSafe™ will stay in your tank and keep it protected from bacteria and pathogens for up to 2 months.

NTS Series

Neutralising Water Treatment Systems

Rainwater generally has a pH that is lower than 7. When water drops below 7 pH it becomes acidic (depending how low the pH drops) and in extreme cases, may begin dissolving copper from your pipes. This reaction results to the green and blue stain on your tap fittings, in your sink, bath and shower recesses.

The Puretec NTS Series is designed to correct the pH of your water. These units effectively utilise a calcium carbonate media to lift the pH which slowly dissolves into the water.

NTS2000 ***NTS3000*** ***NTS4000***

Hybrid M1

Transform your existing mixer tap into a bacteria-reducing filter tap

CONNECTS QUICKLY & EASILY TO ANY MIXER TAP!

The Hybrid Mini is an undersink filter system that can be connected quickly and easily to any mixer tap. It uses Radfire™ ultraviolet technology to reduce up to 99.9% of bacteria. It is eco-friendly and does not use chemicals. It turns your rainwater into pure, safe, delicious and healthy drinking water!

Puretec®
PERFECTING WATER

With more than 35 years in the water filtration industry, Puretec remains a family owned, family run company with an unrivalled reputation for quality, innovation and reliability. We manufacture innovative solutions to achieve the best possible outcome for all your water filtration needs.

Our dedication to manufacturing a wide range of products with seamless backup has ensured our water filtration products are of impeccable quality and are true to our tagline *perfecting water.*

The Puretec range has been designed for the worldwide market from extensive market research and customer feedback. We know uncompromised quality and consistency along with innovation and technology is of utmost importance with water filtration - that's how we've ensured Puretec water is consistent and precise.

This product guide has been designed to help make product selection easy. However due to the complex nature of water chemistry, we strongly encourage confirming any product selection with one of our team. We may need to perform a water analysis test to confirm contaminants in water.

^5 year warranty is 1 year parts and labour, 4 years parts only. Excludes consumables and the RES7 Ballast. RES7 warranty is 3 years (1 year parts & labour, 2 years parts only)
