WH2-55 AMC

Whole house water filtration system

The well-known WH2-55, now with an aluminium cover

Why only have filtered drinking water when you can have filtered water to every tap in your house. Drink clean water from every tap, shower with less chlorine to minimise hair and skin dryness, and ensure healthier lawns and gardens.

The AMC architecturally mounted cover is made from aluminium, and built to withstand the elements with its tamper-proof casing. This cover doesn't just keep your system secure, but also keeps it looking tidy, no matter where it's installed. Available for WH2-55 systems only.
